You can bypass the search engines and our search box by typing the URL into the location window at the top of your browser tab. For the surname *Example* you type in

`https://sortedbyname.com/letter_e/example.html`

You must change the directory `/letter_e` if the surname you seek starts with a different letter. You figured that out, right? Use lower case, no spaces, hyphens, apostrophes or other stuff.

---

Remember, names are sorted the correct way: by surnames, then given names, not by word. *La Forest* is sorted as *Laforest* and *Rose Mary* is sorted as *Rosemary*. This also means *Josephine* is between *Joseph I* and *Joseph J*.
